

**Prove your faith. Bid for divine favour.
Sacrifice citizens to save your culture in a game
of calculated risk and deadly fanaticism.**

Petition is a card game in which players petition four fantasy gods (or act as godless heathens) to dominate the cultures of their neighbouring societies.

Petition uses a unique bidding mechanic to appeal to the gods: when a player bids for a god's blessing, other players may challenge the petition with an offering of their own. Each bid is a combination of prayer beads and cards, so when the bids are revealed, the gods weigh faith against action, and favour the player who has demonstrated the best mix of each.

Petition is a 2 to 6 player game, with a bonus solo game mod.

Buy a copy today, and then watch our tutorial videos to learn how to play.
